The Undrone Upstate March is an two week long march from Hancock Air National Guard Base in Syracuse to the Niagara Falls Air Force Base, both of which are control centers for the MQ-9 Reaper. The Reaper is a killer drone or “remotely piloted aircraft,” flown by pilots on the ground in Syracuse and Niagara Falls, with targets in Afghanistan and, perhaps, other points in the Middle East (That’s classified information, folks!.) Marchers will be at the panel to contribute their own perspectives on the drones.
