Why "Alice's Nightmare in Drone Land"?

And why are we going to Hancock AFB on October 29? Our country has gone down the rabbit hole -- racially, spiritually and economically. COVID 19 has exposed the Pentagon and the Federal government's inability to do their job: to aid and protect our people. In fact the government has helped spread COVID, denying its severity and denying our people the PPE to combat that scourge.

The Pentagon squanders essential resources on endless war and for the "improvement" of nuclear weaponry and for the development of assassination drones (some piloted from Hancock AFB, home of the *174th Attack Wing* of the NYS National Guard). Overseas, civilians are killed, maimed, displaced, orphaned and widowed by drones.

Meanwhile climate disaster takes its fearsome toll: California, Oregon and Colorado burn; hurricanes and flooding rampage in the South. The racial and economic divide widens. The Federal government is mired in corruption, deceit and denial. Democracy erodes. The Doomsday Clock reads 100 seconds to Midnight.

Little wonder we now must call upon Alice, the White Rabbit, the Mad Hatter and the Cheshire Cat to help wake folks up. Come to Wonderland and begin to imagine what is possible and good. Then help us dismantle the old pathogens and create a world of peace with justice and elect a new government which will protect and serve the American people. Join Us. The time is now! No arrests are planned. Please wear a required face mask and please do social distance too.
