A Holiday Benefit

For The Afghan Peace Volunteers' Quilt Project

After 13 years of U.S./NATO intervention in Afghanistan, and US\$1.172 trillion dollars spent on the Afghan war from 2001 to October of 2012, the basic needs of ordinary Afghans constantly caught in the crossfire are still poorly met.

In the following winter of 2013, the Afghan Peace Volunteers (APVs) organized the making and distribution of duvets to poor families in Kabul, including those in refugee camps.

Thanks to international peace-builders who had raised funds from among ordinary Americans, the APVs were able to distribute more than 2000 duvets that year. The Afghan ladies who sewed the duvets were paid a living wage per duvet. – *quote from APV website*

Lets Help Them Do It Again This Year!
