

Join the **UnDrone Upstate Walkers** for a Program:

@ The Flying Squirrel Community Center

6:00 pm, Wednesday October 14th

**DRONES, TARGETED KILLING &
THE PILOT AS EXECUTIONER-**

The UnDrone Upstate Walkers are walking 165 miles across upstate New York from our first Drone base at Hancock Air National Guard Base, to Niagara Falls where a new Drone piloting installation is under development at the Niagara Falls National Guard Base. They are walking to draw attention to the illegal, immoral U.S. Drone Program, which is already embedded in our local society.

6:00 pm: Refreshments, Informal talk with walkers

7:00 pm: View the film "Good Kill"

8:45 pm: Q&A with the Walkers

Drone Pilots have an apparently easy job. They stay home with their families, and avoid the risks of physical immersion in wars in a foreign country. Every day they go to the 'office' and sit with their team in front of a computer screen, operating a UAV, an unmanned aerial vehicle over a warzone, or somewhere else where men are targeted as 'enemies' by an Imperial task force, men who have no way to retaliate.

But what might it really be like to have your hand on the joystick in a real life 'War Room', where life and death decisions are made, and you are the one who must implement them, every day, all day

+++++

The Undrone Upstate Walk is a project of the Upstate Coalition to Ground the Drones and End the Wars. We are a coalition of antiwar organizations in Buffalo, Rochester, Syracuse, Albany, Ithaca, Binghamton and beyond. Our mission is to resist the growth of the drone industry and the war crimes committed from drone bases in our communities, and to educate the public about this issue.
