Join us! Guest Speaker: Medea Benjamin of Code Pink

Friday! April 21st, EARTH DAY Actions in Syracuse sponsored by
UpstateDroneAction.

SUBPOENAS WILL BE DELIVERED TO MERCHANTS OF DEATH (e.g. LOCKHEED) and their allies, calling them to give account at the November Merchants of Death Tribunal for making huge profits from war while causing the suffering of millions of victims and severe destruction to the earth and all her creatures. The Earth and her people cry out for relief. No More Weapons for War! Lockheed is the world's largest weapons dealer and profiteer. Their CEO is on the NATO board. All countries who sign on must spend 5% of their GDP buying Lockheed weapons and parts. According to Vets for Peace, the US military has the largest institutional output of greenhouse gases, more than 145 countries combined, supplying 800 US bases around the world, sending rockets to put satellites to conduct all our wars and surveillance. Lockheed feeds the beast of war. We go to the gates of Lockheed, Merchant of Death to say Peace is the Way. "We used to make weapons for war! Now we make wars for weapons!"
