

Letter to Clerics On the Anniversary of the Afghan War

Dear (Pastor, Rev. Father, Rabbi)

We are at your place of worship, today, October 7, 2021, not to demean you or your house of worship. We are here in remembrance of the 20th anniversary of the start of the war on Afghanistan. The war on Afghanistan expanded to Iraq and made the date 10/7 of far greater horror than 9/11.

In the past twenty years, approximately a million people have died in the Middle East in wars generated by the United States starting on 10/7. Additionally, 9 million people have become refugees in Iraq alone, with countless houses, apartment buildings, and businesses devastated. The crime of 9/11 with 3,000 dead and two skyscrapers destroyed pales in comparison.

Those of us here today represent various peace and justice groups and respectfully request your vocal objection to more war-making and fear-producing. The near silence of religious denominations at the start of 10/7 and the 20-year war that followed is, to us, shocking. Praying for the troops was a mantra of all religious groups and music to the ears of the Pentagon and its war contractors. It enables the war-makers to do their business blessed by the moral arbiters of America—religious communities.

We ask you, we implore you, to vocally object to existing plans for more drone warfare. We urge you to call for an end of the Over the Horizon drone attack plan of our United States government. We ask as well that you speak out in opposition to the political, military, and corporate fear-making depicting China as our new enemy—a fear that is already generating great financial benefit to the Pentagon war contractors.

Signed

ENDORSERS OF OCT. 7 DAY OF ATONEMENT STATEMENT
